sun makeup

The difference between a traditional

Make-up

Takes at least 10 minutes

Lasts only 1/2 a day

Doesn't let your skin breathe

YOUR SKIN TAN JU

Perfect for a cocktail party

Fabulous at "the" party

Make up and That'so Sun Makeup

That'so Sun Makeup

You apply it in only
6 seconds

Lasts from 3 to 6 days

It has skincare and
anti-aging properties.

Sun Makeup is an innovative, modern "total beauty" concept.

As of today, you can tan and take care of your skin all in one: an instant, even, bronzed colour that lasts for days. Sun Makeup is the first product of its kind to give you that "sun-kissed" look, without blocking your pores, and leaving your skin naturally beautiful.

It's not ordinary Make-up. It's Sun Makeup

THE 1ST SUN MAKEUP

JUST SPRAY IT ON

S IN ST 6 SECONDS

Ready for the beach

Always with a great tan anytime you want

MOISTURIZED SKIN

Anti-aging treatment

Moisturizing and nourishing

DELICATE AND
NATURAL PERFUME

A delicate, enveloping fragrance:
perfect to wear every day

TS 765 A *Autospray*

YOU CHOOSE THE INTENSITY OF THE COLOUR YOU WANT

TOTAL BODY SUN MAKEUP

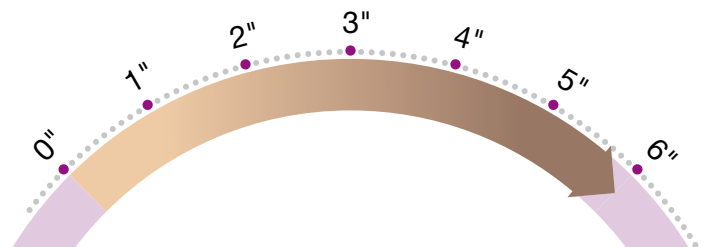

TS 765 A *Autospray*

That'so uses exclusively patented MicroCore Technology to apply the self tan solution: the ultimate delivery system for self tanning products that allows an application time of just 6 seconds for an intense and natural looking tan.

The Microcore Technology is used with a patented electrostatic system, which attracts the atomised solution directly to the body, beautifully and evenly.

4 self cleaning nozzles atomise for complete and even coverage with almost no overspray. The application is perfect, using less solution and leaving a cleaner cabin.

The open design of the unit enhances the quality of the session... no claustrophobia, just the pleasure to wear a tan. The Autospray is easy to use, and completely automatic: a voice guides the customer through the session, from the choice of tanning level, to the spray session, until the final drying session.

Spray Gun

TS *Spray Cabin**

*Available also in short version

FACE AND MORE SUN MAKEUP

TS 44 MT *Spray Gun*

The new That'so spray gun has an application system that takes advantage of the synergic actions between pressurizing and atomising. Thanks to a new design that finely mediates technology and size, the margin of error is practically zero.

A rapid and sure application is easy, even for the novice, reducing the margin of error to practically zero. The addition of the Microcore Technology allows a precise projection of the lotion towards the skin for an absolutely even and glowing effect.

Top performance and elegant design make this product ideal for the most demanding salon owners.

This spray system is silent; ideal even in zen beauty centres where silence is an absolute. The 1/8 inch tube is flexible and eases movement during the spray session.

SUN MAKEUP FORMULATIONS

More than 30 years of experience in the formulation of cosmetics have gone towards researching the most advanced and natural ingredients for a sunless solution and complementary products that are ideal for ease of application and quality of results.

Exclusive cosmetic bronzers give an unrivalled colour.

Compared to other self tanning formulas, Sun Makeup spray lotions penetrate the skin evenly, avoiding any possibility of stains or dark patches as tan fades.

The absence of harsh ingredients and the addition of Aloe barbadensis, make Sun Makeup gentle yet effective, a real beauty elixir.

That'so has formulated their products to use the exclusively

patented Microcore Technology, that lets you "wear the sun" without uv rays, anytime.

All That'so products are dermatologically approved and tested.

USE: HOME
 LASTS: 2 DAYS
 RESULT: COLOUR +

SUN MAKEUP ON-THE-GO

Sun Makeup is innovation

ON-THE-GO 125 ML

That'so has developed an innovative new mini size product that mimics the same wonderful effect of the That'so micro particle professional sun makeup application: a perfect idea for those who want to prolong their tan or want to enter the Sun Makeup world for the first time.

On-The-Go is an ideal product to take along every time you want to give yourself an instant, even and naturally beautiful suntan. In just a few seconds, with a gesture that's simpler than applying make up... your face, neck, neckline, arms and legs will be perfectly tanned. A wonderful colour that only Sun Makeup products can give you! 3 long sunny days, anytime you want, directly on your skin.

This product is available in the clear and dark versions.

Apply On the Go by starting to spray not directly on to your skin, but sweeping evenly across your face or other areas, maintaining a distance of 20 cm. If necessary, cover your hair and clothes. The bottle can be tipped upside down and will continue to spray perfectly, even in hard to reach places.

Less than a minute is all you'll need, and Sun Makeup will soon be all that you need to look freshly and naturally tanned. Use it everywhere: face, neckline, body and even on your legs...

USE: "PROFESSIONAL" for TS 765 Automatic and for TS 44 Manual

LASTS: 5/6 DAYS

RESULT: ULTRA COLOUR +

DARK

Self Tanning Spray with Bronzer

Formulated for use with Handheld and Automatic Spray Systems. Ideal for customers who want a tan on the go. The bronzer gives an immediate golden colour, while the active ingredients work to tan the skin in 3-4 hours.

CLEAR

Self Tanning Spray

Formulated for use with Handheld and Automatic Spray Systems. Ideal for a gradual tan, an intense gradual colour develops in 3-4 hours and last up to 5 days.

Available formats:

1 LITRE

1 GALLON
(3800 ML)

10 LITRES

USE: "PROFESSIONAL"
for TS 765 Automatic
and for TS 44 Manual

READY - TO - TAN

Makeup remover

All makeup removers are not ideal to be used prior to applying self tanning products.

This product is exclusively formulated by That'so to be used before a Sun Makeup spray tan.

This light cleansing milk leaves the skin perfectly clean and fresh with no oily residues that could impede the proper penetration of active self tan ingredients.

The ph is precisely balanced to prepare the skin for the spray session, ensuring optimal results.

Its cool texture and lenitive ingredients make it a veritable balm, creating a calming sensation.

PERFECTION

A rich, emollient cream that is available for customers that for hygienic reasons would prefer to create a barrier while walking within the cabin for their spray session.

This cream guarantees hygiene, yet allows the customer to maximise the effect of the patented electrostatic system which works at its best with bare feet.

Perfection is not to be used as a barrier cream with Sun Makeup solutions which do not stain. It is an added service for customers with particular dry patches.

Single station

Double station

STARTING BE BEAUTIFUL IN A

No appointments, no waiting and easy access for an impromptu beauty experience. This is the latest service created by That'so.

A small, versatile and customized beauty corner service to be discovered in shopping malls, perfumeries, beauty and tanning salons or at the hairdresser's. A trendy place where you don't have to go out of your way to try the latest beauty trends or just to put on some finishing touches. While you're shopping, before an important meeting, after a tanning session, while your hair is being done... a few minutes and you're beautifully ready for any occasion.
